

Parent Comments – July 2018

- When my Son started Fairfield Nursery School he couldn't talk much. In just a couple of months of him being here he changed so much, confident and talking loads. He really enjoys coming to nursery and it has helped him so much. The staff are so helpful and always there if you need them. I'm happy he will be spending another year here.
- Fairfield Nursery is a great nursery that has helped my child develop to levels beyond our expectations. She is much more confident with great use of words and expressions. She has a brilliant level of understanding and gives confidence to the other children in the family around her.
- My child has learnt quite a bit since starting nursery school. She has since started talking a lot more, knows her shapes and colours, and counts to 20. She has made lots of friends, has learnt to talk nicely to the other children and her behaviour has also changed. I think she has developed a lot since starting nursery school.
- The nursery has helped both my children when they started by gaining more confidence and teaching them how to make friends. The bond the staff have with all the children is very special for all as they lay down the foundations ready for them to go to school. Both my children have special memories of nursery and the staff and that is precious. The nursery provided extra support by enlisting support for speech and language for both my girls and the extra activities they were also invited to attend, and we have noticed changes.
- My Son is really happy coming to nursery and this has helped him to learn. He couldn't walk but watching all the other children encouraged him in no time. He has learnt sign language and can communicate well. He is making friends and learning new things all the time.

- Our daughter has come a long way since starting nursery in January. She is very forward in all that she does. She can write her own name and loves to do maths. She has developed lots of different skills during her time here. I wouldn't change anything on how you got my daughter ready for school. Fantastic staff!
- I have had 2 children come to this nursery. They have developed and had so much support. Without this nursery I would have been lost- not only because this nursery provides maternity and other classes to local people and without this facility it would be hard for a lot of people to access or get to services provided by the nursery.
- The nursery is a credit to Hyndburn. The staff have been fantastic from day 1. Staff at Fairfield have provided a great time for our daughter during her time here. They have provided a great education, knowledge, care and support. Our daughter has grown in every aspect. She is so much more confident in herself and her knowledge. They provide fantastic fun days and trips for the children, as well as everyday care to my daughter and other children.
- Fairfield Nursery has been really good to my child. He has improved so much since he has been here; they have helped him a lot. Also the support they have given me while going through a lot of family problems. I also attend 'Pickle', which is a group for parents which I benefit a lot from. This nursery has helped my child and family. Thank you!
- I have had children in this nursery since 2014 and always received lots of support and care with my sons (who have hearing loss diagnosed since birth) and with my daughter. They did an amazing job and well prepared my children for school. My children are bilingual and the nursery helped them to learn English better. I have more children who I plan to register with them because they are the best. We received lots of support with the language and therapy as well. My children all love the staff which work here. Lots of good changes, thank you.

- Since my daughter started nursery school she has become less attached to Mummy and Daddy and become more independent, making friends. She loves coming to nursery and is always asking if it is time for nursery. She has started to talk a little bit in English at home too.
- Having just been granted a SGO for my grandson, Fairfield has been helpful from the start. They were very friendly on the home visit and have maintained the friendliness throughout. They were very understanding and supportive throughout our court case.
- The nursery and staff helped me with the loss of my daughter; my son was at nursery at the time. The staff supported me and my son through it all. They made me feel safe and secure. It is like having a family around you.
- My children and I have both made lifelong friends here. It has helped me to maintain a job whilst they have been at nursery. The children are more confident and love going to nursery.
- Nursery has helped my child open up to people around her. It has helped her to learn to share things with others and has learned her colours, numbers and shapes. It has encouraged her to do other activities and she is more active now.
- Since my son started in September 2017 he has come on incredibly! As well as my son attending the nursery I also attend a group- PICL. Due to personal circumstance I also benefit massively from this service.
- As a child my son has gained massive improvement both physically and mentally. We felt totally secure at this nursery. All teachers are dedicated, passionate and caring. We highly recommend this school for upbringing our kids for the future.

- Fairfield Nursery School has improved my child's development and supported us a family. They supported my son who has a life threatening condition. They are amazing and we would be lost without them.
- Fairfield Nursey has been a godsend to us. It is in a perfect location as there aren't many full time nurseries around here- only pre-schools linked to the primary schools. Since being at nursery my daughter has become more confident and outgoing. She has made lots of friends who are going to her primary school- St. Mary's. She really enjoys coming to nursery and has a special bond with her teachers; she talks about them all the time at home. Fairfield has helped her with her speech, social skills and behavior. She will miss them all!
- My daughter cannot express herself properly due to language delay. Staff at this nursery have been super, always keeping me informed. On a weekly basis I could see videos of my daughter through PICL meetings. This helped me interact more with my daughter as I would talk to her about the video clips.
- My granddaughter has been at Fairfield since January. The difference we have seen in her education and play has been amazing with the help of the staff. Keep up the good work!
- I have had both my children in this nursery and I have been very happy. The staff help the children to grow and learn and do things on their own. The teachers and all the staff are very kind and helpful. The school is maintained in a very good condition, with lots of space for the children to move about and do activities. My son is going to school now and he will miss everyone.
- It has been amazing for both my children and myself. My children have come on loads since coming to nursery and have provided fantastic opportunities for my child to progress. The nursery staff have focused on my child's needs and helped me overcome obstacles regarding my child's behaviour.

- My son has been at Fairfield Nursery for 6-7 months. I have seen a great improvement in his speech. The staff at Fairfield have helped me massively with issues surrounding my son's speech delay and behaviour.
- In Spring room they have been absolutely brilliant with my child when settling her in and all my concerns were dealt with so well. Sue, Wendy, Helen and Andrea are all so pleasant, which I think is just as important. My child is leaving with some super qualities which I am sure she will cherish forever. Thank you again.
- Fairfield Nursery has helped my boys become the confident young boys they are. They really enjoyed nursery with lots of lovely experiences and activities to further their learning.
- Nursery has been fantastic for my child who has Cri Du Chat- a genetic disorder. If it wasn't for their input into my daughters 2 years I honestly don't believe that she would have made such fantastic progress. Fairfield is such an amazing place for children to learn the starting point of their little lives and are helped to turn into little adults. SENCO has been a major part to my family and I don't think that I could have coped without Fairfield being in my child's life. The help they have given to me is amazing.
